

Castrol® Actevo® 4T

Description

Castrol® Actevo® 4T with TRIZONE™ Technology is a high quality mineral lubricant specially formulated with Active Protection Molecules that cling to and protect the critical parts of 4-stroke motorcycle and scooter engines for an active and continuous protection from the start to the end of every journey.

Applications

Recommended for 4-stroke motorcycles or scooters. Protection in three critical zones of the motorcycle: Engine, Transmission and Clutch with exclusive TRIZONE Technology. Always follow the recommendations of the vehicle manufacturer.

Advantages

- The Active Protection Molecules in Castrol Actevo 4T cling to engine surfaces, creating a continuous and highly efficient layer of protection against wear, from the start-up to the end of every journey, under all driving conditions.
- Developed with TRIZONE Technology that provides exceptional protection in the three most critical zones of 4-stroke motorcycles:
 - Engine – protection for higher performance and longer service life
 - Gearbox – effective protection against wear and tear of gears
 - Clutch – helps prevent burnout, better performance in synchronization
- Castrol Actevo 4T 10W-40 with lower viscosity provides better protection at startup

Typical Characteristics

Test	Method	Unit	Castrol Actevo 4T	
			10W-40	20W-50
SAE			10W-40	20W-50
Density @ 15°C, Relative	ASTM D-4052	g/ml	0.875	0.877
Viscosity @ 40°C	ASTM D-445	cSt	94.2	169.6
Viscosity @100°C	ASTM D-445	cSt	14.0	18.7
Viscosity Index	ASTM D-2270		152	127
TBN	ASTM D-5293	mg KOH/g	8.1	8.1

The above figures are typical of those obtained with normal production tolerance and do not constitute specification.

Industry Specifications and OEM Approvals

SAE	10W-40	20W-50
API	SG	SG
JASO	MA-2	MA-2

User Advice

Based on available information, this product is not expected to produce adverse effects on health when used for the applications referred to above and the recommendations provided in the Material Safety Data Sheet (MSDS) are followed. MSDSs are available upon request through your sales contact office, or via the internet at www.castrol.com/us. This product should not be used for purposes other than the applications referred to above. If disposing of used product, take care to protect the environment, return used oil to collection center.

Storage

All packages should be stored under cover. Where outside storage is unavoidable drums should be laid horizontally to avoid the possible ingress of water and the obliteration of drum markings. Products should not be stored above 60°C, exposed to hot sun or freezing conditions.
