

Castrol Water Repellent Pro Spray

Water repellent for car windows

Description

Highly durable and powerful water repellent

The fluorine based component of this product creates a durable and strong protective layer that both prevents dirt sticking on the car windows and offers a powerful water-repelling effect.

Conditions of Use

How to use:

- Before use, remove any sand, dust or dirt on your car windows. Any dirt or remains from the previous coating may result in a weaker water-repellent effect. Also make sure the windows are completely dry.
- Take off the product cap and spray the product on the window. Before the liquid dries out, spread it evenly on the window surface using the provided felt.
- When the window surface dries out, use the provided cloth to remove any remaining particles on the window.
- After use make sure to close the product cap. Keep the product in a vertical position.

Typical Characteristics

Name	Method	Units	Castrol Water Repellent Pro Spray
Specific Gravity @ 25°C	Supplier	-	0.792
pH @ 50% dilution	Supplier	pH	2.0

Storage

All packages should be stored under cover. Where outside storage is unavoidable drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should not be stored above 60°C, exposed to hot sun or freezing conditions.
